MEDICAL.

Contagious.

I am a native of England, and while I was in America I contracted a terrible blood poison, and was sent to a doctor and treatment as an out-door patient at Nottingham Hospital, England, but was not cured. I left England and came to America, and my life was saved and was covered with sores all over my body and limbs. Finally I completed all the home treatment, and was sent to New York, where I was treated at Roosevelt in this city, as well as by a prominent physician in New York, and I have now recovered.

I saw the advertisement of Swift's Specie, and I determined to give it a trial. I took a bath, bathe, and I am well with it, and they have not entered me. I am as sound as ever, and still as ever I was in life.

P. H. BALFOUR,

New York City, June 1, 1885.

In March of last year I contracted bilious poison, and being in great pain and treatment as an out-door patient at Nottingham Hospital, England, but was not cured. I left England and came to America, and my life was saved and was covered with sores all over my body and limbs. Finally I completed all the home treatment, and was sent to New York, where I was treated at Roosevelt in this city, as well as by a prominent physician in New York, and I have now recovered.

I saw the advertisement of Swift's Specie, and I determined to give it a trial. I took a bath, bathe, and I am well with it, and they have not entered me. I am as sound as ever, and still as ever I was in life.
